

PARFAIT BEN-ONI TEDOM TEDOM

201-9739 82 avenue NW, Edmonton, AB, T6E 1Y6 | tedom.tedom7@gmail.com | +1 780-902-3912

GitLab, bitbucket & Github: <https://gitlab.com/tedom.tedom7>, theparadoxe, <https://github.com/theparadoxShin>

SUMMARY OF QUALIFICATION

- Highly skilled and certified Full Stack Software Developer with over 5 years of experience in designing, developing, and managing web and desktop applications. Proficient in a broad range of technologies including HTML, CSS, JavaScript, PHP, TypeScript, Python, and their associated frameworks such as React, Vue.js, Laravel, Django.
- Demonstrated ability to deliver high-quality projects on time using best practices like Git, unit testing, and CI/CD pipelines, while aligning with Agile Scrum methodology to enhance team productivity and user experience.
- Passionate about Artificial Intelligence, with hands-on experience contributing to freelance and open-source projects in the GitHub community, leveraging GCP, AWS, and Azure cloud platforms.
- Detail-oriented, punctual, and committed to continuous learning and skill development. Recognized for strong team collaboration, leadership, and a bilingual communication style in English and French.

SKILLS

- **Languages:** PHP, JavaScript/TypeScript, Python, SQL, NoSQL
- **Frontend:** React.js, React Native, Vue.js, HTML5/CSS3, Bootstrap, Tailwind CSS
- **Backend:** Laravel (Certified), Node.js, Django, Flask, Express.js, CodeIgniter
- **Cloud & DevOps:** AWS (EC2, S3, ElastiCache), Google Cloud Platform, Azure, Docker, Kubernetes, CI/CD
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, Firebase, Supabase
- **AI/ML:** OpenAI API, TensorFlow, LangChain, Vertex AI, Amazon Bedrock, Azure OpenAI
- **Tools:** Git, Warden, WSL, Jenkins, PHPUnit, Docker, Bash, Linux, Jest

PROFESSIONAL EXPERIENCE

Full Stack PHP Developer - Lead Developer

MageMontreal | Montreal, QC | August 2024 - Present (Remote - Freelance Full-Time)

Canada Tire Store management application deployed as SaaS

- Leading development of multi-tenant SaaS application for Canada Tire store management
- Maintain and guide junior developers in environment setup and daily coding tasks.
- Improved application performance by 40% implementing Redis caching on AWS ElastiCache
- Designed and maintained a CI/CD pipeline between Bitbucket and AWS, supporting both development and production environments. Implemented automated testing workflows based on a Test-Driven Development (TDD) architecture to ensure code reliability and deployment efficiency.
- Configured Raspberry Pi devices with WireGuard TCP/UDP tunnel for secure store communications
- Integrated OpenAI API for intelligent store management recommendations during promotional periods
- Lead daily Scrum meetings and weekly sprints using Agile methodology
- Deploy containerized applications using Docker/Warden with AWS DEV/PROD environments
- **Technologies:** Core PHP, Laravel, React, AWS (EC2, S3, ElastiCache, RDS, CloudWatch), Redis, Docker, OpenAI API

Full Stack Web Developer

Annotation Data & Freelance | Edmonton, AB | January 2024 - Present

- Thinkers Production: Streaming platform with real-time web app and admin dashboard (React/Redux, Laravel)
- Revelation by Betty: E-commerce catalog with WhatsApp integration for orders (Laravel, MySQL)
- CPizza Mobile App: Deployed restaurant ordering app on PlayStore/AppStore with real-time order management using React Native, Laravel APIs, GCP
- Implemented role-based access control, payment integrations, and responsive designs

Full Stack Developer & Project Lead

Universal Software | Douala, Cameroon | April 2023 - April 2024 (Remote - Part-time)

- Healthcare Management System: Built complete clinic/hospital management system with patient records, appointments, billing modules using CodeIgniter/HTML/CSS/JQUERY
- WISET Financial System: Developed banking fee regulation system for XLS Finance with OCR integration using React/TypeScript/Laravel
- Develop a showcase page presenting the different ERP subscription packages. The customer chooses a subscription, fills in a form and submits the request to be contacted later. LAMP Stack
- Successfully delivered 3 major projects on time and under budget

Web Developer & Technical supervisor

Ashtags Digital Agency | Cameroon | March 2018 - December 2022

- Travel Booking Platform: Complete booking system with Visa management, flight/hotel reservations using Laravel
- Skoole Learning Platform: Admin panel for online learning management with Firebase BaaS and React Js
- NZ-Company E-commerce: Scalable platform with real-time inventory, PayPal/Visa integration
- Led team of 2-4 developers and QA, ensuring 95% sprint completion rate in Agile environment

KEY PROJECTS & ACHIEVEMENTS

- **Liria** - Current: Co-founder of an indoor navigation AI application and model for event and space management. (Vue js, FastAPI, React native, neo4j database, AWS)
- **Daemon Craft**: Startup focused on developing digital solutions, integrating AI into applications, building AI models, and implementing IoT technologies.
- **MaplePath** - Current: AI-powered mobile app for Canadian newcomers (React Native, GCP Build, Run, CloudSQL Postgre driver, FastAPI, RevenueCat SDK)
- **Grow&Shine** – Bolt Hackaton : AI-Powered Web app for Startups who wanted to manage easily their marketing strategy on social network (AWS, React, Node js, serverless, Dynamo db)
- **Hananomi AI**: AI model and IoT equipment (microcontroller + NPK sensor) providing agricultural guidance, identifying soil strengths and weaknesses, and recommending planting plans for any type of fruit or vegetable.
- **KimboCare** - Digital Health Hackathon Winner 2023: Telemedicine web application for laboratory management (MERN Stack)
- **AI Facial Recognition System** - 2018: Deep learning-based facial recognition system for access control (Python OpenCV, Django, SQL)

CERTIFICATION

Generative AI for Everyone

DeepLearning.AI/Coursera

Certificate, 2025

AWS Cloud Practitioner

Microsoft – 2024

In Progress (November 2024)

Generative AI for Software Development

DeepLearning.AI/Coursera

Certificate, 2025

CompTIA ITF+

CompTIA – Certificate, 2024

Laravel Certified

W3Schools / LinkedIn Learn

Certificate, 2024

Microsoft Azure Fundamentals AZ-900

Microsoft - 2024

AWS Certified AI Practitioner

AWS - 2025

AWS Certified Cloud Practitioner

AWS - 2025

EDUCATION

Master's degree in industrial computing engineering

IUCSJD (University of Ngaoundere WES equivalency), Douala, Cameroon, July 2019

Network System Manager

Sundance College

Diploma, June 2025

VOLUNTEER EXPERIENCE & ADDITIONAL QUALIFICATIONS

- Mentor volunteer at NGO Rubisadt Foundation | Jun 2017 - Sep 2023 | Training young lady for STEAM Integration specially programming language from scratch
- Languages: English (Fluent), French (Native)
- LinkedIn: <https://www.linkedin.com/in/parfait-ben-oni-tedom-tedom-496bb6135/>

AVAILABILITY & REFERENCES

- Available for: Urgent fixes, short-term projects, long-term contracts, CTO advisory
- References upon request
